ABOUT ME

I have been diagnosed with autism since childhood, which affects my senses, social communication, and other daily experiences. I tend to work best independently at my own pace within a familiar environment, such as at home or in other quiet areas. Under these circumstances, I can focus on completing an assignment.

I have always loved drawing, ever since I was young. My favorite things to draw are animals, fantasy/sci-fi creatures, and characters from pop culture and of my own creation. My personal goal in life is to work in the animation industry and/or publish graphic novels.

WORK EXPERIENCE

Summer 2024

BCAF (Calmer Con) - Meadowbrook School - 10 Farm Rd, Weston MA 02493

Internship - Graphic Design and Volunteer Work

During the summer of 2024, I took part in an internship for the Boston Comic Arts Foundation (BCAF) with help from my college. I designed logos and mascots, edited photos, and volunteered in-person for Calmer Con, a comics convention with accommodations for neurodivergent and disabled individuals.

Winter 2020-2021

Kohl's - Rockingham Mall - Salem, New Hampshire 03079

Seasonal Retail Sales Associate

During the 2020 holiday season, I was briefly employed as a seasonal retail sales associate at Kohl's, where I helped restock and reorganize shelves, clothing, and other products.

2019-2020

Law Offices of Steven M. Dwyer - 61 Main St, Stoneham, MA 02180

Logo Designer

During my junior year of high school, my Graphic Communications shop was granted the opportunity to design new logos for a local law firm using the Adobe programs Illustrator. The logo that I designed was ultimately selected by the owner of the firm, and I was compensated for my work.
